D. BACKGROUND AND EXPERIENCE	
Please briefly present the partner organisation.	<p>E-expert is an Austrian-based research and education institution dedicated to promoting research and innovation. We offer educational and counseling activities, psychological and social skills development, ecological and environmental counseling for young people and adults, in order to enable them to adapt and integrate effectively into our dynamic society. Our goal is to contribute to society through lifelong learning that meets the requirements of the current labor market. We believe in the power of core value. Our goal is therefore, to create products that customers and consumers really want. We are constantly challenged to create real added value for our customers, partners and employees. We challenge you and your ideas alike.</p> <p>Our Vision We provide realistic, actionable recommendations to help you make the best decisions to successfully grow and scale your business. Recognition of our excellence in the research advancements and educational opportunities offered to a variety of projects and clients.</p> <p>Our Mission To be recognized as the leading European provider of strategic advice for the development and implementation of growth strategies in Europe's major economies. We take education to new dimensions through our innovative programs and teaching methods.</p> <p>E-expert is an innovative company focusing on 6 core areas of business, including:</p> <ol style="list-style-type: none"> 1. Consulting And Research Studies 2. E-Learning and Trainings 3. Web Development and Online Applications 4. Psychology and Soft-Skills Consultancy

	<p>5. Ecological And Environmental Solutions 6. Project Management and Implementation</p>
<p>What are the activities and experience of the organisation in the areas relevant for this application?</p>	<p>Based on our experience and previous activities, we believe, we can be a strong partner in any Erasmus Plus project in areas:</p> <p>1. Consulting and Research Studies The core of our business's strength is a highly skilled workforce that offers advisory services in niche markets including connecting jobless individuals with employers, career guidance, entrepreneurship, and administrative support.</p> <p>2. E-Learning and Trainings E-expert assists businesses in meeting the various learning requirements of diverse learners. With the aid of subject-matter specialists, our bespoke e-learning services assist firms in identifying their online learning requirements, developing a strategy, identifying solutions, creating storyboards, creating content, and creating online courses.</p> <ul style="list-style-type: none"> ● With the help of our coaches, mentors, and trainers, we are able to impart our best practices gleaned from our collective experiences. We have knowledge about soft-skills instruction in relation to: Lifelong learning ● Soft skills ● Leadership development ● Coaching ● Entrepreneurship ● Talent management ● Burn-out ● Innovation ● Gender equality ● Financial literacy ● Ecological literacy ● Social media/fake news literacy ● Sport ● Critical thinking ● Ageing population ● Career counselling ● Environmental solutions <p>3. Web Development and Online Applications We provide online learning solutions, software and mobile apps for online courses. Create an e-learning system for course publishing. Publishing courses for teachers. A platform with teachers and student managers. Users today use mobile applications to learn and develop their skills. We help companies improve their user experience by building a complete e-learning platform.</p> <p>4. Psychology and Soft-Skills Consultancy Employees must acquire the social and emotional skills that robots are unable to do as automation and artificial intelligence fundamentally alter the nature of work. Companies and people must change how they evaluate, inform, teach, and reward their workforce for soft skills like teamwork, communication, and critical thinking in order to promote this behavior. Soft skills are essential to businesses because they have an impact on culture, mentality, leadership, attitudes, and behavior. They are non-technical talents that help people connect with others successfully and peacefully.</p>

	<p>5. Ecological And Environmental Solutions We provide online learning solutions, software and mobile apps for online courses. Create an e-learning system for course publishing. Publishing courses for teachers. A platform with teachers and student managers. Users today use mobile applications to learn and develop their skills. We help companies improve their user experience by building a complete e-learning platform.</p> <p>6. Project Management and Implementation Moreover, we are strong in providing project management and implementation in the field of Erasmus Plus projects, as in the last 2 years we have been focusing on management of more than 34 Erasmus Plus projects. This includes work not only on the intellectual outputs of projects or their best practice sharing, but also on the project execution, including:</p> <ul style="list-style-type: none"> ● Dissemination ● Evaluation ● Risk management ● Progress reporting ● Monitoring ● Financial management
<p>What are the skills and expertise of key staff/persons involved in this application?</p>	<p>The founder, Soňa Štefková, is the main person in the process of selecting trainers for cooperation and she helps companies to choose the best and most suitable trainings and workshops according to their needs and goals. Ms. Štefková is also a certified coach and is a holder of the NLP practitioner certificate. As a coach she trains, lectures and writes professional articles in the areas of human resources, leadership and talent development. Ms. Štefková has rich experience with Erasmus Plus projects both KA1 and KA2. She holds two master's degrees, one from Comenius University Bratislava and from French business school ESCP-Europe. She has been working and studying in Paris, Austin, London and New York. She speaks English and Slovak.</p> <p>The team has a wide range of experience in carrying out national and EU projects, with a focus on the Erasmus Plus project programme. Numerous projects on informal certification in various fields, learning methodologies, curriculum development, training course development, ICT, e-learning, and digitization projects, as well as the development of trainer materials and career paths for educators and youth workers, have all been carried out by our organization. In the area of Erasmus Plus projects, we excel at project management and execution, including both mobility and strategic collaboration (KA1 and KA2). We have concentrated on managing more than 34 Erasmus Plus projects during the past two years. This involves focusing on more than just the intellectual outputs.</p>
